

# Honcho Screen JS Prototype

Automatically update  
list from Firestore  
database

Product prices total

Generate dynamic QR code (string stays the same, just change the total value)

Example:  
"000201513900106421555444011680B4D4515852ADEA0201152045399530360854(number of characters)(total amount)5802NZ5911Android Dev6008Auckland63042D86"

Important Information:
